Field: Science ( GPA - 3.57 )

### ACHIEVEMENTS

#### ‘Dream Act Achieve Event’

(<https://www.studentaffairsnepal.com/>).Organized by Student Affairs, Kathmandu , Nepal (15 Jan , 2018) . An event for realizing one's dreams and planning for future studies and success

#### ‘Hack A Week’

(<https://locus.pcampus.edu.np/>) .Organized by locus 2020 (26 Jan,2020). Week long hackathon that involves inception and creation of a working product of proposed ideas .

#### ‘Quantum Hack’

(<https://nxtgennepal.org/>). Nepal’s first digital hackathon (28-29 Aug 2020) organized by Nxt Gen. A hackathon with a team of four to make a working product of a proposed idea.

#### ‘3rd NAAMII winter school in AI’

(<https://www.naamii.org.np/>). A 10 day (20- 30 Dec 2021) comprehensive school in AI involved AI experts and enthusiasts for all education levels (Ph.D , Masters and Bachelors) exploring various improvements and latest papers in Artificial Intelligence.

#### ‘AeHIN Hour’

(<https://www.asiahealthinformationnetwork.org/>). Presenter for ‘OpenIMIS status and implementation in Nepal’ (8 March 2022). Asia eHealth Information Network is a collaboration of digital health advocates created by the World Health Organization in 2011 to help Asian countries with digital health development. AeHIN is a nonprofit organization incorporated in Hong Kong and maintains a secretariat team in Manila, Bangkok, and Kuala Lumpur.

### PROJECTS

#### Smart Attendance

(<https://github.com/0000Blaze/Smart-Attendance>). A digitalized approach to the traditional attendance system with features of face recognition and server support. Scraped for data of students and their images, worked on the UI and server side of the application. Used : python, SQL , HTML/CSS.

#### Mero Ledger

(<https://github.com/0000Blaze/MeroLedger>). Mero ledger is a personal finance managing online application which tracks and recommends financial decisions to user. Worked in the backend with MERN stack ( MongoDB , Express and NodeJS)

#### Higher Education Application Database

(<https://github.com/ravip5921/HEAD>). HEAD manages a database for all the students of I.O.E applying abroad for higher education (Master's Level and above) through a simple and light-weight web interface. There are 3 uses categories in HEAD System namely Administrator , Teacher and Student. Worked on HTML/CSS and PHP.

#### Made my own portfolio page

(<https://rohanchhetry.com.np/>)(<https://github.com/0000Blaze/portfolioPage>). Solo project involved making a serverless web page for myself. Worked with HTML/CSS , JavaScript and used google services to enable form submission to google excel sheet without a server.
